

PRACTICAL SAFETY. CLOSER TO THE WORK.

SAFETY THAT TRAVELS TO THE WORKFACE

SafetyCentrics helps mining and high-risk operations turn safety expectations into practical actions, stronger conversations and learning that workers can use on the job.

HSE ADVISORY

Leadership, risk and critical controls

WORKER LEARNING

A progressive 12-topic series

BRANDED POSTERS

Customizable, multilingual visuals

SAFETY IS LIFE.

EVERYONE PROTECTING EVERYONE.

COMPANY OVERVIEW

Make safety practical.

SafetyCentrics is an independent health, safety and environment advisory and learning brand serving mining, construction and other high-risk operations. We help organizations connect management expectations with the realities workers and supervisors face at the point of work.

SEE THE WORK

Understand the task, site conditions and the barriers people meet in real operations.

MAKE IT USABLE

Translate standards and risk controls into clear guidance, examples and conversations.

CLOSE THE LOOP

Turn worker and supervisor insight into owned actions, follow-up and learning.

FOUNDER

James White

FOUNDER | HSE LEADER

James brings more than 22 years of health and safety experience across mining and high-risk construction, including operational leadership, major projects, fatal-risk governance and frontline engagement. Through SafetyCentrics, he focuses on practical systems that help leaders, supervisors and workers understand risk, apply controls and learn from work.

“A safety message matters when people can understand it, apply it under real conditions and get support when a control is missing.”

SERVICES AND LEARNING PRODUCTS

Built around the work.

SafetyCentrics combines advisory support with practical learning materials that organizations can adapt to their sites, crews and procedures.

HSE ADVISORY

Leadership and governance support, risk and critical-control reviews, assurance, learning reviews and practical implementation.

CUSTOM SAFETY POSTERS

Digital reproduction-ready posters tailored to company branding, site context and language requirements.

WORKER LEARNING SERIES | 12-TOPIC PATHWAY

A 12-topic path from ownership to improvement.

Each pack is designed to benefit the worker and strengthen the supervisor's ability to facilitate discussion, coach safe decisions and follow through on issues.

01 OWN MY SAFETY

- Safety ownership
- Know the standard
- Stop and ask

02 CONTROL MY WORK

- Plan the task
- Verify critical controls
- Tools, PPE and energy

03 PROTECT EACH OTHER

- Be each other's keeper
- Mobile equipment and line of fire
- Team communication

04 IMPROVE THE SYSTEM

- Report and learn
- Emergency and environment
- Close the loop

MADE FOR YOUR SITE

One learning experience. Your operation.

The learning materials can be adapted to reflect the way your company works, the risks crews face and the language people use every day.

COMPANY BRAND

Logo, colours, company name and optional watermark.

SITE CONTEXT

Site-specific terminology, task examples, hazards and approved procedures.

LANGUAGE

English, Bahasa Indonesia and other local or company languages.

DELIVERY

Digital files for team briefings, learning sessions and reproduction on site.

OUR SHARED MESSAGE

SAFETY IS LIFE.

Everyone protecting everyone.

ABOUT SAFETYCENTRICS

SafetyCentrics is a health, safety and environment advisory and learning brand focused on fatality and serious injury prevention. Founded by James White, the company supports mining, construction and other high-risk operations with practical HSE guidance, worker learning resources and customizable safety communication.
