

# **Experienced safety leadership. Without the full-time overhead.**

Fractional OHS leadership, focused reviews and independent project assurance for mining, construction and industrial teams. Canada and international support.

## **01 / Fractional OHS Leadership**

Agreed monthly leadership capacity, management coaching, document review and action follow-up. A defined scope for teams that need senior judgement without a full-time appointment.

## **02 / Focused Reviews & Contractor Assurance**

Start with a Rapid Safety Snapshot, Critical Risk Review or Contractor Readiness review. Agree the documents, hazards or submissions to examine; receive prioritized findings and practical next actions.

## **03 / Project & Owner's Assurance**

Independent support through construction, commissioning and operational handover. Define the mandate, reporting lines, site presence and deliverables before work begins.

## **04 / Posters & Worker Learning**

Company-branded safety posters, multilingual campaigns and facilitated learning packs. Digital deliverables and reproduction scope are confirmed in your quote.

### **DISCUSS > DEFINE > ACT**

Share your concern, location and timing. We confirm fit and availability, then agree the outputs, included capacity, fee and payment terms in a written proposal.

Canadian clients: CAD proposals. International clients: USD proposals. Applicable taxes, travel and agreed expenses are identified separately. Additional work requires agreement.
